

REINIGUNGSMILCH

Gentle, deep cleaning

Thanks to substances which break down fat, sebum and oil is removed from the skin while its natural protective layer is retained and strengthened. With its selection of organic oils - olive oil, avocado oil and sea buckthorn oil - the Cleansing Milk offers a range of benefits.

RyBeauty Cleansing Milk rids the skin of persistent dirt and oily substances. It is gentle and nurturing on the skin.

Active ingredients:

Organic aloe vera: is moisturising and soothes weathered, irritated skin.

Glycerine: provides moisture and smooths the skin. Organic olive oil: supports skin regeneration, makes the skin smooth and silky. Supports the formation of the skin's hydrolipid layer.

Organic sea buckthorn oil: supports the regeneration of the skin and mucosa, promotes epithelialisation and granulation.

Organic avocado oil: has a high vitamin content (vitamin A, B, D, E) and is similar to olive oil in its composition. Avocado oil is particularly gentle for sensitive skin and prevents it from drying out.

Sunflower oil: supports skin regeneration, makes the skin smooth and silky. Supports the formation of the skin's hydrolipid layer.

Vitamin E: reduces inflammation, promotes wound healing.

Plankton extract

A special feature of the RyBeauty Cosmetics Range is the plankton extract which is taken from marine plankton. The following effects have been proven in studies: It improves

the skin's physical barrier, its chemical barrier and supports rapid regeneration of the skin's hydrolipid layer. Ingredients from the sea - for healthy skin!

The five pillars of RyBeauty Cosmetics

- 1. <u>Care and repair</u>: The ingredients of aloe vera and vitamin E ensure a gentle treatment and provide the body with the substances it requires for its own regeneration processes. Sea buckthorn oil supports the regeneration of the skin and mucosa, promotes epithelialisation and granulation
- 2. <u>Protection</u>: Olive oil, avocado oil and sunflower oil and, in particular, plankton extract strengthen the skin's protective layer.
- 3. <u>Anti-ageing</u>: The moisturising ingredients help to produce smoother skin.
- 4. <u>Natural cosmetics</u>: With the "Natrue" seal, we confirm that our products meet 100 % of the requirements for natural cosmetics.
- 5. <u>Hypoallergenic</u>: Only well-tolerated substances are used in the products. The products have been dermatologically tested.

As with all RyBeauty Products our Shower and Bath is

- free from petrochemicals and mineral oils
- free from paraffin
- free from silicon oils
- free from petrochemical substances
- free from synthetic fragrances
- free from sodium-laureth-sulphates and sodium-lauryl-sulphates
